## **FLEXTRACTION FUME AND DUST EXTRACTION PRODUCTS AT HEALTH & SAFETY 2009**

Flextraction Ltd, suppliers and manufacturers of Local Exhaust Ventilation (LEV) products for dust and fume extraction in the work-place is exhibiting a number of new and existing products on stand nr. 092 at Health & Safety 09 (24<sup>th</sup> – 25<sup>th</sup> February 2009) in Sandown Park, Surrey

Products from TEKA GmbH, Germany, localised extraction arms manufacturer, Fumex AB, Sweden, localised extraction arms and filters, Kiekens Products BV, Holland, industrial high vacuum cleaning systems as well as PISAC International's range of their axial, centrifugal, roof and centrifugal smoke exhaust fans will be shown

Products on show will include:

TEKA's '*Caremaster SF*' a BIA European Standard approved mobile one way welding fume filter for industrial fume extraction with a fan capacity of 2,500m<sup>3</sup>/hour and a dust collection efficiency of around 99.9% using a class W3 filter.

Fumex's compact and lightweight LF70 mobile filter is designed for extraction of gases, fumes and dust in laboratories, hospitals, pharmaceutical manufacturing, electronic component manufacturing, and laser branding as well as welding. With a highly efficient 0-70 l/second airflow, low noise level up to 56dB(A), it can be used with a wide range of easy to change gas and particle filters.

Fumex's LFK 175 single station local fume extractor designed to remove, fumes, gases and dust from the work station using a Terfu 75mm diameter arm with a maximum airflow of 0-80 l/second will be shown. Using a H13 filter, it is 99.99% efficient for 0.3µm particles.

Details of Flextraction's own brand products will be available, as well as information on Industrial Cleaning Equipment, including Kiekens '*W192 / Wet & Swarf*' cleaner for the suction of slightly contaminated liquids, swarfs and accompanying coolants, lubricants and wet industrial waste.

Also available will be details on a new range of industrial *Procool Spot Coolers* from Ecotechnics S.p.A. based in Italy providing cool air where you need it in the workshop.
