ALTERNATIVE ROUTES TO IOSH LEARNING

As an alternative to the traditional taught course ACT have been offering the 'IOSH Managing Safely' in e-learning format with excellent results. A fantastic, cost effective way of enabling managers that need flexible learning to gain this important award, users are able to start a programme at any time. This 30 hour package assists users in meeting the requirements of the IOSH syllabus and the final assessment can be done in their own workplace.

Building on the success of the Managing Safely, ACT is now pleased to offer the 'Working Safely' qualification in e-learning format. Aimed at workers from any sector, it provides grounding in the essentials of health and safety. Learning is made up of 6 Parts with ample opportunity to test learning and practice the online final assessment. This 7 hour web based e-learning package will enable employees to gain the IOSH award without leaving their workplace and at a pace that suits them. Final assessment is a friendly multiple choice and hazard spotting scheme. The package is fully interactive, visually engaging and offers an enjoyable method of learning by way of supporting exercises and hazard identification animations.

For further information please contact the ACT Enquiry Team on 01384 447915 or visit www.rmse-learning.co.uk for a demo.
