

## Derma Shield - The Ultimate Skin Protectant

Benchmark Technologies Limited, the manufacturer of Derma Shield, an industrial skin protectant that supersedes traditional barrier creams are revolutionising the skin care process.

Easy to apply, and non greasy Derma Shield stays on the skin for between 4-5 hours despite repeated washing and is proven to improve the condition of your skin.

Derma Shield can be used as a protection against oils, grease, resins, glues, and also emergency protection against acids and alkalis.

Those wearing gloves in the workplace will be interested to hear that Derma Shield frequently makes them more comfortable to wear, it will also prevent the irritation that the gloves themselves cause by controlling excess perspiration.

Benchmark are so confident that Derma Shield can improve your skin condition that they have come up with an amazing Risk Free Trial Offer enabling sceptical new customers the chance to try Derma Shield totally Risk Free.

See an amazing demonstration on Stand 120 and collect a free sample and comprehensive literature, including details of the remarkable RISK FREE TRIAL OFFER that is available.

A preview of the demonstration can be viewed online at: <http://www.dermashield.co.uk/derma-shield-industrial-demonstration-video-1.html>
