

## **IIRSM: HEALTH & SAFETY IS A PRIORITY**

The International Institute of Risk and Safety Management (IIRSM), has officially endorsed this year's Health and Safety '10 programme of regional events. It now looks forward to the first Health and Safety '10 event, which will be held at Sandown Park in Esher, Surrey on 23<sup>rd</sup> and 24<sup>th</sup> February.

A charitable company set up to advance standards in accident prevention and occupational health throughout the world, IIRSM has members in over 70 countries. Varying levels of membership ensures IIRSM is an inclusive organisation open to all individuals qualified in health and safety, or a related discipline, actively involved in workplace health and safety, or those who simply have an interest in it.

The IIRSM team will be available throughout the Sandown show to answer your questions and explain how you could benefit by becoming a member. Visit stand 48 for further information.
