Give Disposable Overshoes the Boot
WHAT ARE YULEYS?
Industrial-grade reusable work boot covers designed to help you get your work done quickly and efficiently, while keeping floors clean.
YULEYS were created as a cost-effective replacement for disposable overshoes.

- Keep dirt out
- Protect flooring
- Saves time
- Last longer
- Easier to use
Disposable Overshoes

- Slippery
- Time consuming and cumbersome to put on
- Easily soaked through and torn
- Are a waste
FAST. COST EFFECTIVE. CLEAN.

1. Hands-free on-and-off
2. Heel-lock system
3. Flexible design
4. Slip-reducing tread
5. Specifically designed for steel-toed boots
6. Reduces effects on landfill
YULEYS SAVES TIME AND MONEY

On average, disposable overshoes cost 8p per pair.

1 worker uses about 7 pair per day.

7 pairs a day, 5 days a week, 48 working weeks a year.

= £134/year per worker in disposable booties.

Saves over £104.00 a year per worker.

A landfill full of booties vs. one pair of YULEYS®.

- In-home repair/service
- Delivery
EASY SIZING AND CARE

Universal sizing guidelines make it easy to find the YULEYS to fit your work boot or shoe. When trying to determine your YULEYS size, measure the sole of your footwear from heel to toe. When measured correctly, your YULEYS will fit snug.

YULEYS are designed for today’s busy companies and workers: simply rinse them off when you’re done and let them air dry. YULEYS are launderable and can be sterilized with bleach.
YULEYS®

- Hands-free on-and-off
- Heel-lock system
- Flexible design
- Slip-reducing tread
- Specifically designed for steel-toed boots
- Reduces effects on landfills
- Available in standard TPR and industrial-grade SEBS rubber
